(https://www.youtube.com/channel/UC7X0LKts7k4FT498ld_x5sg) on Mon Nov 04 2013.

From the Morning of Friday November 22nd 1963

President Kennedy delivers his final speech. He spoke to the Fort Worth chamber of commerce.

This was aired on NBC affiliate WBAP- TV

[00:00:00 \(https://www.youtube.com/watch?v=AJLlckZrb1I\)](https://www.youtube.com/watch?v=AJLlckZrb1I)

this is ed Herbert at Hotel Texas where 2,000 guests are awaiting the arrival of the president just about 30 seconds ago the president finished a 10-minute appearance at the parking lot across the street from the hotel and he is on his way up we expect him to walk through this door at any moment the crowd has been here since early this morning and when he addressed the group in the parking lot across the street there were apparently three to four thousand persons this is just a guesstimate as officials say they had continued to build and probably will continue to build throughout this half-hour event here at the hotel Texas because many people want to see the president when he leaves to go to Carswell Air Force Base the 2,000 guests here in the ballroom have already had breakfast they are waiting and so in one sense the presidential breakfast title is misleading because the president will walk in just in time to sit down and make his address to the people he should start talking within about seven or eight minutes assuming he arrives within the next few minutes and he plans to speak for 20 minutes however his schedule is so tight he's doing Dallas in less than two and a half hours he may not speak that long he may tailor his speech to fit the time available at 5:30 this morning people are already waiting outside and at 5:30 there was a heavy rain coming down it was strange to see that the parking lot or several of the parking lots around the hotel were already filled at 5:30 in the morning it looked more like about 7:30 or 8 o'clock at night in downtown Fort Worth coming into the ballroom with the governor will the president will be Governor John Connally senator Ralph Yarborough and Vice President Lyndon Johnson the rest of the head table has already been seated they came in about 17 minutes ago we understand that the president is just about ready to come in through here coming through the kitchen incidentally as a security measure and we'll leave the same way there had been plans for him to leave from here in an open car a

[00:02:01 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=121s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=121s)

him to leave from here in an open car a convertible is parked outside but with the rain falling the way it is it's fairly certain that the top will be up his route to Carswell is as follows for those who may want to get a chance to look at him when he goes leaves the hotel here about Main Street to bail Matt then I'm thrown after tax broke out Jacksboro to River Oaks Boulevard then the Roaring Springs Road and on to Carswell Air Force Base it's more than 1,000 students at River Oaks Elementary School will be out of class for a few minutes so they can see the president's motorcade go by that car while they were bored Air Force one that's the president's jet transport try to Dallas for a greeting there and for Dallas viewers the motorcade downtown will go lemon tech Turtle Creek bend down Cedar Springs to Harwood down main circle the courthouse then on Stemmons freeway to the Trade Mart after the Dallas appearance of course he goes to Austin where tonight there will be a \$100 a plate fundraising dinner the only event that's tagged as political in his tour of Texas however there is feeling that by song especially his critics that the entire trip through Texas the two day five

speech tour is political in that he's mending political fences here in Texas normally a trip from the Marquise downstairs up here takes about 30 seconds but we assume he shakes hands with everyone in sight and we just had word that he is entering now we have not seen him yet but we'll stand by and let you know as soon as we do see him coming among those seated at the head table Monsignor Vincent Worf who will give the invocation you see him there talking to Fort Worth mayor pro-tem Willard bar

[00:04:00 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=240s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=240s)

Fort Worth mayor pro-tem Willard bar that's mrs. bar between then down the table next to them our judge Marvin V Simpson jr. and his wife mrs. Simpson then the woman there on the right is mrs. Kennard her husband is downstairs with the president he will enter the hall with him the next lady is mrs. John Connolly of course her husband - were coming with the President as well mrs. Linden be Johnson's husband the next two seats are reserved for the President and mrs. Kennedy on the other side of the rostrum you see mayor Baird Friedman and his wife and next to him will be attorney general and mrs. Kaur then Speaker House Speaker byron tunnel as you can see who's who in Texas politics is here for this event today next to them are mister mrs. Marion L Hicks the next couple you will see or jet mister mrs. Jack WM not sure this breakfast is being sponsored by the Fort Worth Chamber of Commerce and here is no Atkinson jr. director of the Fort Worth Chamber and she connects to the atkinson's our mr. mrs. OSI Yancey still Yancy's a labor leader in Fort Worth and the man who will give the benediction is dr. Granville T Walker seated at the end of the table there we've had several false starts so to speak that the president is coming when he does of course there will be a large round of applause and the eastern hills high school band seventy-nine members will break out with hail to the chief so you'll have no doubt when he does arrive when the president appeared out in the parking lot he broke one of the cardinal rules of security in fact he broke it two or three times he went out into the

[00:06:01 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=361s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=361s)

two or three times he went out into the crowd and of course Secret Service men find this the most nervous time of any presidential appearance as long as the Secret Service men can keep the crowd away from the president they have a good chance of protecting him but once he moves into a crowd the Secret Service men are nearly immobilized in protecting him another rule is that anyone who approaches the president should have both hands visible and empty and as you can tell in a crowd there's no way to determine that so whenever the president does move out into a crowd for handshaking and back slapping and changing exchanging pleasantries he is always at the mercy of the crowd and the Secret Service is at its least effective position on September 6 1901 those two rules were broken and it ended in tragedy that was the day that President William McKinley was appearing at the pan-american exposition in Buffalo New York and at a public reception the crowd moved in around him and the three Secret Service men who were guarding him had no chance to screen the people approaching him because it was a hot day Secret Service also allowed persons to have handkerchiefs in their hands to wipe the perspiring brows it just so happened that one of the thousands of handkerchiefs in that large Hall covered a revolver in the hand of 28 year old Leon troll goes he was an unemployed mill worker he said he was an anarchist he was also Adam was a man with a long history of mental illness and as in many important occasions of the world no one seemed a sense that anything different was going to happen when McKinley reached out to shake troll goes his hand it looked like a familiar scene the scene of the President of the United States shaking hands with Fred nobody the assassin shattered that picture quickly he slapped McKinley's hand away and fired two shots point-blank in an instant McKinley's attacker was driven

[00:08:01 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=481s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=481s)

instant McKinley's attacker was driven to the floor as the president was being helped to a chair McKinley murmured don't let them hurt him seven days later McKinley was dead oddly enough the assassination attempt was staged in the temple of music quite an ironical note and there was a quiet back sonata being played in the background when the two fatal shots rang out now here comes Vice President Johnson

governor Connally senator Ralph Yarborough Congressman Jim Wright state senator Don Bernard but still the president has not arrived you may have heard the drums roll in the background in anticipation of it when the president walks in they will play hail to the chief and now we expect any hem and now the president to enter the hall from our vantage point we can see a flurry of activity by Secret Service men in the kitchen so we assumed that as soon as the table is seated that is governor Connally vice-president Lyndon John Thunder Yarborough and state senator Duncan are to Congressman Jim Wright the president will enter the ballroom one of the Secret Service men who is one of the key operators here has just stepped into the kitchen so we assume he is preparing the way for the president he was due to arrive in the ballroom at nine o'clock and if my watch is correct it's now nine ten so he's running about ten minutes behind schedule just what effect us will have on the length of his speech we do not know as we said earlier normally in such instances the speech is tailored to fit the time available there's not much time available here

[00:10:00 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=600s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=600s)

there's not much time available here comes the president and a quite a few ladies who appear to be quite disappointed that mrs. Kennedy is not here I am sure that if she does not appear the president will explain the reason for her absence with delayed he may have changed his suit vote when he entered the building from the parking lot attendant appearance across the street it was quite damp from the rain he was the only member of the official party that did not wear a raincoat but as he walked by me here I noticed that his coat was dry and there were no rain spots on it so he may have gone to his suite to change suit coat

[00:12:05 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=725s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=725s)

I think please the invocation will be given by Monsignor Vincent J wolf one senior wolf Oh eternal God father of these United States of America we as a nation are grateful for our noble destiny from the day of our initial consecration to thee we have relied upon thy omnipotent Providence and under thy protection we are now before the world a beacon of hope a strand of liberty and justice for all our founding fathers proclaim the Creator and by that fact our country promotes for each resident a Liberty most absolute and an equality most entire Oh God a mite and wisdom with a spirit of counsel and fortitude assist our President of the United States that his administration will be useful and fruitful for the common good of thy people over whom he presides and O God

[00:14:01 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=841s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=841s)

people over whom he presides and O God may we with him be nine instruments in establishing the divine harmony throughout the world so that thy sons and daughters from one end of the earth to the other may be free to join in the glorious hymn of worship glory be to the old God in the highest on earth peace knell God the giver of good gifts we thank thee for the food which thou has given for the nourishment of our bodies the temples of our souls made to thine image and likeness Amon be seated please there's a low on the program here is the next item on the agenda is straightened out we still have no work from Secret Service men or White House aides as to why mrs. Kennedy is not present at the breakfast

[00:16:01 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=961s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=961s)

the man who introduced Monsignor Wolfe was Raymond buck president of the Fort Worth Chamber of Commerce if everything goes according to schedule the next item on the program will be a rendition by the Texas Boys Choir well in a situation like this the best the reporter can do is guess sometimes but we've been watching a head table closely and so far there's been no coffee placed at mrs. Kennedy's spot at the table and no breakfast has been set down so this indicates that she will not appear now once again who's mr. buck and gentlemen it's wonderful to see you all here this morning and we now are going to have the pleasure of hearing from Fort Worth's finest the Texas Boys Choir

[00:18:45 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=1125s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=1125s)

it's strange how in situations like this a relatively minor character can become so important quite a few people in the ballroom are watching the maitre d he's this short man that's walking back and forth behind the head table he put a plate in front of Vice President Johnson he put one in front of Kennedy and quite a few people noted that so far there is no plate at the place of mrs. Kennedy now he's pouring coffee as he moves down the line again he did not stop at mrs. Kennedy's place there was no boat right your knees Amos last night but he left this almond butter

[00:20:43 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=1243s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=1243s)

it's a mother earth for cyclists and approaches Azkaban blueberry Limit Texas or beside the Rio Rio bruha and they love me we just received word from one of the president's aides that mrs. Kennedy is on her way down and apparently this is what's caused the delay because there are additional selections by the Texas Boys Choir not scheduled for the program and as far as we can determine she will enter the same way the President did through the kitchen door that you see for security reasons one minute ago we

[00:22:02 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=1322s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=1322s)

for security reasons one minute ago we were told she'd be down in 30 seconds so as you can see we are just standing by until she arrives now is an event that I know all of you have been waiting for as you can tell from your action notes this is kind of a coming in you can standing outside in the kitchen waiting for introduction of the guests at the head table will be completed moving up to the front of the ballroom not on your dives the ladies in the audience she's wearing a pink outfit trimmed in black I knew more about it I tell you the kind of material it looks like a nubby material wool of some type and with the chilly weather outside today this is probably very appropriate there's some very happy women here today we made the trip down to see her and now they've seen her there is always great courageous and brilliant leader of the world's

[00:24:00 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=1440s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=1440s)

brilliant leader of the world's strongest nation its greatest power for peace and for freedom he has honored us with his presence and that of the charming and lovely first lady our hearts and our arms are open to you may God bless you and cause his light to shine on you and on your companions and your family ladies and gentlemen I proudly present the President of the United States yeah I know now why everyone in Texas Fort Worth is so thin having gotten up and down about nine times this is what you do every morning mr. Bach mr. vice president Governor Connally Senator Yarborough Jim Wright members of the congressional delegation mr. speaker mr. Attorney General ladies and gentlemen two years ago I said that introduced myself in Paris by saying that I was the man who had accompanied mrs. Kennedy to Paris I'm getting that somewhat that same sensation that as I travel around Texas nobody wonders what Linden and I wear

[00:26:11 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=1571s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=1571s)

I'm glad to be here in the gym right city about 35 about 35 years ago a congressman from California just been elected received a letter from an irate constituent which said during a campaign you promised to have the Sierra Madre Mountains reforested you've been in office for 1 months and you haven't done so well no one in Fort Worth has been that unreasonable but in some ways he has had the Sierra Madre Mountains reforested and here in Fort Worth he's contributed to its growth he speaks for Fort Worth he speaks for the country and I don't know any city that's better represented in the Congress of the United States that poor girl and if there are any Democrats here this morning I'm sure you won't hold that against them three years ago lost September I tamed the air on the vice president spoke at Burkburnett Park I called in that speech for national security policy and a national security system which was second to none a position which said not first but if when and how but first that City responded to that call as it has through its history and we have been putting that pledge into practice ever since and I want to say a word about that pledge here in Fort Worth which understands national defense and its importance to the security of the United States during the days of the Indian War this city was a fort during the days of

[00:28:01 \(https://www.youtube.com/watch?v=AJLickZrb1I&t=1681s\)](https://www.youtube.com/watch?v=AJLickZrb1I&t=1681s)

this city was a fort during the days of World War one even before the United States got into the war Royal Canadian Air Force pilots were training here during the days of World War two the great liberator bombers which my brother flew with his co-pilot from this city were produced here first nonstop flight around the world took off and returned here in a plane building factories here the first truly in a continental bomber the b-36 was produced here the b-58 which is the finest weapons system in the world today which had demonstrated most recently in flying from Tokyo to London with an average speed of nearly a thousand miles per hour is a Fort Worth project the Iroquois helicopter from Fort Worth is a mainstay in our fight against the guerrillas in South Vietnam the transportation of crews between our missile sites is done in planes produced here in Fort Worth so wherever the confrontation may occur and in the last three years it's occurred at least three occasions and Laos Berlin and Cuba and it will again wherever it occurs the products of Fort Worth and the men of Fort Worth provide us with a sense of security and in the not-too-distant future and in the not-too-distant future a new Fort Worth product and I'm glad that there was a table separating Mr. Hicks and myself a new part worth product the TFS Tactical Fighter experimental nobody knows what those words mean but

[00:30:01 \(https://www.youtube.com/watch?v=AJLickZrb1I&t=1801s\)](https://www.youtube.com/watch?v=AJLickZrb1I&t=1801s)

nobody knows what those words mean but that's what they mean tactical fighter experimental will serve the forces of freedom and will be the number one airplane in the world today it's been a good deal of discussion of the long and hard-fought competition to win the tf-x contract but very little discussion about what this plane will do it will be the first operational aircraft ever produced that can literally spread its wings through the air it will thus give us a single plane capable of carrying up missions of speed as well as distance able to fly very far in one form or very fast in another it can take off from rugged short air strips enormously increasing the Air Force's ability to participate in limited wars the same basic plane will serve the Navy's carriers saving the taxpayers at least 1 billion dollars in cost if they build separate planes for the Navy and the Air Force the government of Australia by purchasing a hundred and twenty five million dollars of tf-x planes before they are even off the drawing board has already testified to the merit of this claim and at the same time it's confident in the ability of Fort Worth to meet its schedule in all these ways the success of our national defense depends upon this city and the western United States ten thousand miles from Vietnam five or six thousand miles from Berlin thousands of miles from trouble spots in Latin America in Africa of the Middle East and yet Fort Worth and what it does and what it produces participates in all these

[00:32:00 \(https://www.youtube.com/watch?v=AJLickZrb1I&t=1920s\)](https://www.youtube.com/watch?v=AJLickZrb1I&t=1920s)

it produces participates in all these great historic events Texas as a whole and Fort Worth they have particular responsibilities for this national defense effort for military procurement in this state totals nearly one and a quarter billion dollars fifth highest among all the states of the union there are more military personnel on active duty in this state than any in the nation say one and it's not Massachusetts any the nation say one were they with a combined military civilian defense payroll of well over a billion dollars I don't recite these for any partisan purpose they're the result of American determination to be second to none and as a result of the effort which this country has made in the last three years we are second to none in the past three years we have increased the defense budget of the United States by over twenty percent increase the program of acquisition for Polaris submarines from twenty four to forty one increased our Minuteman missile purchase program by more than 75 percent doubled the number of strategic bombers and missiles on alert double the number of nuclear weapons available in the strategic alert forces increase the tactical nuclear forces deployed in Western Europe by over 60 percent added five combat-ready divisions to the armies of the United States and five Tactical Fighter Wing's to the Air Force of the United States increased our strategic airlift capability by 75% and increased our special counterinsurgency forces which are engaged now in South Vietnam by 600

[00:34:02 \(https://www.youtube.com/watch?v=AJLickZrb1I&t=2042s\)](https://www.youtube.com/watch?v=AJLickZrb1I&t=2042s)

are engaged now in South Vietnam by 600 percent I hope those who want a strong America and place it on

some sides will also place those figures next to it this is not an easy effort this requires sacrifice by the people of the United States but this is a very dangerous and uncertain world as I said earlier on three occasions in the last three years the United States has had a direct confrontation no one can say when it will come again no one expects that our life will be easy certainly not in this decade and perhaps not in this century but we should realize what a burden and responsibility the people of the United States have borne for so many years here a country which lived in isolation divided and protected by the Atlantic and the Pacific uninterested in the struggles of the world around it here in the short space of eighteen years after the Second World War we put ourselves by our own will and by necessity into a defense of alliances with countries all around the globe without the United States South Vietnam would collapse overnight without the United States the seto alliance would collapse overnight without the United States the center Alliance would collapse overnight without the United States there would be no NATO and gradually Europe would drift into neutral ISM and indifference without the effort of the United States and the alliance for progress the Communist advance on to the mainland of South America would long ago have taken place so this country which desires only to be free which desires to be secure which desires to live at peace for eighteen years under three different administrations has born more than its share of the burden has stood watch for

[00:36:00 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=2160s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=2160s)

share of the burden has stood watch for more than its number of years I don't think that we are fatigued or tired we would like to live as we once lived but history will not permit it the communist balance of power is still strong the balance of power is still on the side of freedom we are still the keystone and the Arts of freedom and I think we will continue to do as we have done in our past our duty and the people of Texas will be in the lead so I'm glad to come I'm glad to come to this state which has played such a significant role in so many efforts in this century and to say that here in Fort Worth you people will be playing a major role in the maintenance of the security of the United States for the next ten years I'm confident as I look to the future that our chances for security our chances for peace are better than they've been in the past and the reason is because we're stronger and with that strength is a determination to not only maintain the peace but also the vital interests of the United States to that great cause Texas and the United States are committed thank you

[00:38:02 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=2282s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=2282s)

mr. president your visit with us and Fort Worth today the things you have said have refreshed and renewed our appreciation of your great leadership and courage you have rocked rain to moisten our pastures and our fields you have brought sunshine in our hearts no we know that you don't wear a hat didn't let you leave Fort Worth without providing you with some protection against the rain I'll put it on in the White House on Monday if you'll come up there you'll have a chance to see you that that Texas hat is presented to you by a washer brothers one of the oldest

[00:40:00 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=2400s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=2400s)

by a washer brothers one of the oldest men's stores and text and to protect you against the local enemies in the manner that you are protecting this nation against our foreign enemies and to keep the rattlesnakes on Vice President Johnson's ranch and strike in you we want to present these fists for boots we won't ask you to put them on here the boots are presented by mr. John Justin former mayor of Fort Worth manufacturer of the most walked about boots in the world and mrs. Kennedy as you ride through the hounds or walk to the rattlesnakes he wants you to have protection too before the benediction I'd like to present mrs. Brown ville Walker the wife of dr. Granville Walker who will pronounce the benediction mr. Granville Walker after dr. Walker it was a benediction Blasket you please remain seated until the President and mrs. Kennedy have made their exit dr. Granville Walker

[00:42:01 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=2521s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=2521s)

let us be in the spirit of prayer the Lord bless all nations with a desire for peace the Lord bless our own beloved nation with rectitude and Prosperity and grant us to achieve justice for all within it the Lord bless our president and all in places of responsibilities with wisdom and with health equal to their tasks and now the Lord bless you and keep you the Lord lift up his countenance upon you and be gracious unto you the Lord cause his face to shine upon you and give you peace both now and forever amen what now so he appreciates this has been the presidential breakfast from the hotel Texas in Fort Worth now the presidential party will leave Fort Worth go to Dallas where this afternoon he will address a crowd at the trademart his program has been an origination of the KTVT remote facilities thank you so much

[00:44:06 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=2646s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=2646s)

very good I would like on behalf as you can see is the president and his wife are about to leave they are stopping to shake hands with everyone along here - gentleman there with the president our Secret Service man the president's reaching out to touch hands with everyone even with the police officer here at the door outside the motorcade is ready to go we had a report that the presidential party would go back to suite 850 first but it does not appear that way from what we can see outside the hotel here you can see in the background that the several thousand people who arrived early to hear the president speak before this breakfast have not left many of them have been here since five and six o'clock this morning right now the rain appears to have stopped it rained very hard from about five to six then rained off and on between 6 and about 7:30 and a few showers were coming down when the president went out there at 8:50 but in the last half-hour to 45 minutes the rain has let up

[00:46:06 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=2766s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=2766s)

for those viewing if you happen to live along the route to Carswell Air Force Base the presidential motorcade will go up Main Street to Belknap then I Jax grew up built after Jacksboro Highway then onto River Oaks Boulevard - roaring Springs Road and finally - car as well there the president will board Air Force jet one that's the official designation of his jet transport the 500 mile an hour jet will make a 30-mile trip to Dallas and land at Love Field the arrival time for love feels about 11:35 they are getting away from here on time so that deadline should be met from Love Field the presidential Caravan will move down lemon to Turtle Creek to Cedar Springs down Cedar Springs to Harwood then domain circle the courthouse then pick up Stemmons freeway to the Trade Mart at one o'clock we will bring you the president's address at the luncheon at the Trade Mart that affair is sponsored by the Dallas assembly graduate research center of the Southwest and the Dallas citizens council about 2:00 p.m. the president's party will leave the Trade Mart and go to Love Field aboard the Air Force jet and take off her Bergstrom Air Force Base in Austin departure time at the airport in case you're interested in being at the airport is 2:35 from Love Field the party will arrive at Bergstrom around 3:15 and drive to the Commodore Perry hotel at Austin there'll be a reception at 4:15 at the hotel sponsored by the Democratic state committee and at 6 o'clock he will drive to the governor's mansion for a reception which will last about 45 minutes

[00:48:01 \(https://www.youtube.com/watch?v=AJLlckZrb1I&t=2881s\)](https://www.youtube.com/watch?v=AJLlckZrb1I&t=2881s)

will last about 45 minutes then the party will leave for the hotel to get ready for the evening affair at 8:15 the party will leave the hotel to go to the auditory for the \$100 a plate dinner at around 9:30 if things go on schedule the party will go back to Bergstrom and board a helicopter to fly to Vice President Lyndon Johnson's ranch near Johnson City then later they will go by helicopter from the ranch to Bergstrom where he will once again board Air Force jet number one and return to Washington when this as you can see here outside the party is taking the president of presidents presence are the presents for the president and the boots in the Hat and for mrs. Kennedy the boots as you heard mr. buck made the reference to riding to the hounds mrs. Kennedy is quite a devotee of horseback riding in a few moments the president will come out and enter his motorcade - for the trip to Carswell Air Force Base once again this program has been originated by the remote facilities of KTVT at one o'clock we will bring you the speech from Dallas at the trademart

END
